

■ MULTI DISPLAY (Only for Europe Model)

1. General

- A multi display has been provided on the center cluster panel as an option only for Europe model. The display, which consists of a wide 7.0-inch LCD (Liquid Crystal Display) screen with a pressure sensitive touch panel, offers improved ease of use.
- Through the use of the GPS (Global Positioning System) and map data in a DVD (Digital Versatile Disc), this navigation system analyzes the position of the vehicle and indicates that position on the map that is displayed on the screen. Additionally, it provides voice instructions to guide the driver through the route to reach the destination that has been selected.
- Upon receiving the vehicle information that is transmitted by the gateway ECU, the navigation information that is transmitted by the navigation ECU, the trip information that is transmitted by the meter ECU and the operation information from audio unit, multi display displays these data on the display.
