FI0EB-03

## **INSPECTION**

- 1. REMOVE FUEL PUMP RESISTOR
- 2. INSPECT FUEL PUMP RESISTOR

Using an ohmmeter, measure the resistance between the terminals.

## Resistance:

0.71 – 0.75  $\Omega$  at 20°C (68°F)

If the resistance is not as specified, replace the resistor.

3. REINSTALL FUEL PUMP RESISTOR
